## SKILLS

- ❖ **C, C++, Java**
- ❖ **HTML, CSS, Javascript**
- ❖ **Dart**
- ❖ **VS Code, Android Studio**
- ❖ **Git, GitHub**

## EDUCATION

- ❖ Rajshahi University of Engineering & Technology, Department of CSE (2023-Present)
- ❖ New Govt. Degree College, Rajshahi, HSC - Science

## ACADEMIC PROJECTS

- ❖ **WrTnM - A Weekly Routine Management Mobile App Built with Flutter**
  Used Language: Dart  (WrTnM Repository)

  It's a mobile app for managing weekly tasks easily. There are many interesting features like a widget for selecting date and time, automatically sorting tasks by time for maintaining serial, etc.

- ❖ **myCash - A Demo Terminal Application of  Mobile Banking System**
  Used Language: C++ (myCash Repository)

  This C++ codebase visually demonstrates the background logic behind a mobile banking system. It has some enormous features like registration for multiple users, sending money, cash-in, cash-out, checking history, etc. One special feature of this codebase is it can save all data permanently in a text file by generating a transaction ID.

- ❖ **Portfolio - A Personal Portfolio Website**
  Used Language: HTML, CSS, JavaScript  (Portfolio Repository)

  A responsive and dynamic portfolio built with HTML 5, CSS 3, and Javascript. It contains necessary details using different animation and styling. Moreover, it has the functionality to collect data from a form and send it to a google sheet.

## ACHIEVEMENTS

- 10th Place at CodeSmash (Intra RUET Freshers Programming Contest)
